Back to the Earth

Starset

And the world
Pulled me high
Far above
Wicked skies
Set me free
Set alive
I become
Satellite

Isolated
I succumb to the weight of the world
Separated
I fall from the sky
Is this death or rebirth?
Falling back to the earth

I ignite
Engine glow
Jettison
All I know

Isolated
I succumb to the weight of the world
Separated
I fall from the sky
Is this death or rebirth?
Falling back to the earth
