Starset

And if I had my way  
I would run to the rescue  
It never works that way  
When you call a bluff

Oh, all the fools rush in  
It's a battle to surround you  
And all the fools want in  
But I'm not giving up

I don't wanna let you go  
But I can't stand to watch this  
I don't wanna let you know  
But you can read my mind

I feel it all the time  
Felt it all around you  
You had me under spell right from the start  
I don't have a telepathic heart  
Telepathic

Blind, I fall into the line  
That's waiting just to get you  
But I don't ever know just what we are  
I don't have a telepathic heart  
Telepathic

Look inside my brain  
You'd know what I want before I tell you  
Give me the words to say to make it enough  
Don't want your star-crossed fate  
You are the sun, I am the full moon  
Don't leave me lost in vain  
I can be what you want

I don't wanna let you go  
But I can't stand to watch this  
I don't wanna let you know  
But you can read my mind

I feel it all the time  
Felt it all around you  
You had me under spell right from the start  
I don't have a telepathic heart

But I don't ever know just what we are

And you always turn away

Back to the start where I break through  
You can run, you can run away  
I will wait in the dark for you  
Should've never felt this way  
Cause you're the sun and I'm just a moon  
I'm in the dark 'till you light the way  
Cause I'm see through  
You can read my mind

I feel it all the time  
Felt it all around you  
You had me under spell right from the start  
I don't have a telepathic heart
