Telepathic

And if I had my way I would run to the rescue It never works that way When you call a bluff

Oh, all the fools rush in It's a battle to surround you And all the fools want in But I'm not giving up

I don't wanna let you go But I can't stand to watch this I don't wanna let you know But you can read my mind

I feel it all the time Felt it all around you You had me under spell right from the start I don't have a telepathic heart Telepathic

Blind, I fall into the line That's waiting just to get you But I don't ever know just what we are I don't have a telepathic heart Telepathic

Look inside my brain You'd know what I want before I tell you Give me the words to say to make it enough Don't want your star-crossed fate You are the sun, I am the full moon Don't leave me lost in vain I can be what you want

I don't wanna let you go But I can't stand to watch this I don't wanna let you know But you can read my mind

I feel it all the time Felt it all around you You had me under spell right from the start I don't have a telepathic heart Telepathic

Blind, I fall into the line That's waiting just to get you But I don't ever know just what we are I don't have a telepathic heart Telepathic

Telepathic

Telepathic

And you always turn away

Starset

Back to the start where I break through You can run, you can run away I will wait in the dark for you Should've never felt this way Cause you're the sun and I'm just a moon I'm in the dark 'till you light the way Cause I'm see through You can read my mind

I feel it all the time Felt it all around you You had me under spell right from the start I don't have a telepathic heart Telepathic

Blind, I fall into the line That's waiting just to get you But I don't ever know just what we are I don't have a telepathic heart Telepathic
