

Rock Myself To Sleep

Starship

Yeah!

Every night I rock myself to sleep, every night I rock myself to sleep

Every night I rock myself to sleep, thinkin' about you, thinkin' about you

Every night I rock myself to sleep, every night I rock myself to sleep

Every night I rock myself to sleep, thinkin' about you, thinkin' about you

And I want to say, it's not the same since you went away

And it's not right, you're not here with me tonight

And it's a crime, just lying here, wasting my precious time

I'm so lonely and I'm so blue, thinkin' 'bout the things I could do to you

Every night I rock myself to sleep, every night I rock myself to sleep

Every night I rock myself to sleep, thinkin' about you, thinkin' about you

And I want to know, don't you see how you hurt me so

Going out of my head, yeah I'm here in this empty bed

And it's a crime, whoa, just lying here, wasting my precious time

I'm so lonely, baby, I'm so blue

Thinkin' 'bout all the things I could do to you

Every night I rock myself to sleep, every night I rock myself to sleep

Every night I rock myself to sleep, thinkin' about you, thinkin' about you
