

# Catch Me

Stat Quo

Start at it

I feel your pain I feel your plight  
These bright lights blind me  
I'm slippin up on this black ice black ice black ice ice  
It's cold and it show you right  
The city never sleep we stay up to pay the price

An if I fall And when I fall Who gon catch me  
If I fall And when I fall who gon catch me  
If I fall And when I fall who gon catch me  
If I fall And when I fall who gon catch me

I am my mommas only child  
Grannys favorite grandson  
These streets I run (huh)  
Like the reverend  
No dmc only red dirt bredren  
No good times raised next door to the heavens  
Dreamin bout the jefferson they building In the heavens  
The hood had be bent like sevens  
Listening to devin on the walkman  
Just doin some old shit  
Talkin to my uncle he tellin me stories of old pimps  
Ridin no tints windows down top dropped  
Fantasizing bout what I'm about when I get to that gwop  
Like it means something like it really means something  
I need to stop wasting my time  
Like I need another watch  
Nah I need another pair of pots  
To cook up a new hustle when my old one stop  
I geuss I want what I don't have  
When I should be happy with what I got  
So I'm a get my mind right  
1da let the beat rock  
Stat quo

Nobody tells you what happens when you fall down  
Who gon catch me who gon catch me  
It's been a long time I've been so lost I can never be found  
Who gon catch me who gon catch me

Nine toes out the other toe left in  
In limbo tryna assemble my life again  
It get turbulent on some fly shit  
Tryna keep up an impress the bad bitches with the cnd cup  
We at the strip club tonight my rent due in the morning  
Now my money goin on my industry friends?  
No more em no more dre  
I guess he finito people  
Left me out to dry but I spit more lethal  
Came back on they ass I give a fuck n\*\*\*a  
And me and dre still cool  
That's how real friends do  
And I ain't got nothing to prove  
To nobody but myself and god the rest I exclude  
Staying true to me is all I'm tryna do

When bullshit occur out the blue  
I keep my head in the clouds  
To guide my way through  
Until my lifes through  
That's how ya boy gon do

Nobody tells you what happens when you fall down (nobody)  
Who gon catch me (Who gon catch me)  
Who gon catch me (Who)  
It's been a long time I've been so lost I can never be found  
Who gon catch me (Whos gonna catch me)  
Who gon catch me (Who)  
(Who hmm hmm)  
(Whos gon catch me)  
(Whos gon catch me)
