

# Deadly Conversation

State Champs

We're indifferent to this deadly conversation  
I know you know we both know that it's...

I wonder if you think I'm still right there  
When you make up your mind  
Slower than the changing of the seasons  
Wouldn't you know I've come to terms?  
That you wouldn't even care if I choked up and stopped my breathing

This isn't something more than life  
I hope my calender breaks tonight  
Before the morning comes  
I hope you know that  
We're indifferent to this deadly conversation  
I know you know we both know that it's wrong  
To stay outside  
Like ships in the night  
I know you know we both know that it's wrong  
So carry on

I wonder if you think I'm wasting time  
I bet you got it all figured out  
But must we try to break the ice  
Beneath this heart of mine

I was perfectly lonely  
I want you to show me  
How you'd ever change my mind  
When I was the same kid?

This isn't something more than life  
I hope my calender breaks tonight  
Before the morning comes  
I hope you know that  
We're indifferent to this deadly conversation  
I know you know we both know that it's wrong  
To stay outside  
Like ships in the night  
I know you know we both know that it's wrong  
So carry on

So don't you ever say my name  
When it comes to who keeps you sane  
I know that you're already gone

Cause when reality sets in place  
You'll be showing the world your second face  
And we can carry on  
I hope you know

We're indifferent to this deadly conversation  
I know you know we both know that it's wrong  
To stay outside  
Like ships in the night  
I know you know we both know that it's wrong

This isn't something more than life

I hope my calender breaks tonight  
Before the morning comes  
Before the morning comes
