

## If It Helps You Focus

### State Champs

You've got your own problems to deal with so, I'll say how it is  
87 couldn't get any longer, but I have to say that it's makin' us stronger  
Now all you have to do is sit and listen to the songs that make you feel alone  
And wish that I would come back home to you

Don't let it happen again she said  
Oh won't you crawl back inside my bed  
Oh what a let down its happened again  
But its never enough to keep you out of my head, of my head  
Oh what a let down but we'll just pretend  
that these promises were just a mistake, just a mistake  
Feels like I've had the weight of the world on my back these past few weeks  
And I'm losing sleep cause I know there's something better to do at four in the morning  
When my life's not that boring

Don't let it happen again she said  
(Well I'm trying, well I'm trying hard)  
Oh won't you crawl back inside my bed  
(And do what I would never do to you)  
Oh what a let down yeah it's happened again  
but it's never enough to keep you out of my head, of my head  
Oh what a let down but we'll just pretend  
that these promises were just a mistake, just a mistake  
Oh look at what we've become

I say we've only just begun  
We've only just begun  
Oh what a let down yeah it's happened again  
but it's never enough to keep you out of my head, of my head  
Oh what a let down but we'll just pretend  
that these promises were just a mistake, just a mistake

You were just a mistake
