

## Breathe Again

### State of Shock

So dead inside, can no longer hide  
Its either fade away or die  
its a way of life  
now i realize  
its eat the fate away or die

If they would let me be i could just  
breathe again  
step aside and let me fight  
breathe again  
show the world what i got inside  
breathe again  
step aside and let me fight  
if they would just let me be

Time to walk away  
leave my old ways  
rid myself of the pain

If they would let me be i could just  
breathe again  
step aside and let me fight  
breath again  
show the world what i got inside  
breathe again  
step aside and let me fight  
if they would just let me be

So dead inside, can no longer hide  
Its eat the fate away or die

Breathe again  
step aside and let me fight  
breathe again  
show the world what i got inside  
breathe again  
step aside and let me fight  
if they would just let me be

if they would just let me be
