

Breathe Again

State of Shock

So dead inside, can no longer hide
Its either fade away or die
its a way of life
now i realize
its eat the fate away or die

If they would let me be i could just
breathe again
step aside and let me fight
breathe again
show the world what i got inside
breathe again
step aside and let me fight
if they would just let me be

Time to walk away
leave my old ways
rid myself of the pain

If they would let me be i could just
breathe again
step aside and let me fight
breath again
show the world what i got inside
breathe again
step aside and let me fight
if they would just let me be

So dead inside, can no longer hide
Its eat the fate away or die

Breathe again
step aside and let me fight
breathe again
show the world what i got inside
breathe again
step aside and let me fight
if they would just let me be

if they would just let me be
