

# Wish I Never Met You

State of Shock

I wonder why i even try  
So tired of the fight  
Whats the point when we know  
You'll never change  
We'll never see eye to eye

Im telling you to meet me half way  
Youre telling me to stay away  
Youre telling me that we should just be friends  
Im telling you that this is the end

I wish i never met you  
Let me go  
It is over  
I wish i never met you  
Now you know  
It is over

All these voices in my head  
Asking me if its dead  
I cant think of a better time  
To let you know  
We'll never be friends again

Im telling you to meet me half way  
Youre telling me to stay away  
Youre telling me that we should just be friends  
Im telling you that this is the end

I wish i never met you  
Let me go  
It is over  
I wish i never met you  
Now you know  
It is over

I wish i never met you  
Let me go  
It is over  
I wish i never met you  
Now you know  
It is over

I wonder why i even try  
(so tired of the fight)  
Whats the point when we know  
You'll never change  
We'll never see eye to eye

I wish i never met you  
Let me go  
It is over  
I wish i never met you  
Now you know  
It is over

I wish i never met you

Let me go  
It is over  
I wish i never met you

I wish i never met you  
I wish yeah  
I wish yeah  
I wish i never met you  
Now you know  
It is over
