

Mansin Humanity

State Radio

Man's inhumanity towards man
Stop them when they first began
Tell them this road's to die on
It's nowhere land
They're never supposed to reach
Or be kindly received
They're just dropped to their knees
In a nowhere land

And in the orphanage
They run for their beds
They run from the man in the building
And the allies just watch
And whisper and talk
As one million are marched to a nowhere land

Nowhere land, nowhere land, ay
Nowhere land, nowhere land, nowhere land, ay
Nowhere land, nowhere land, nowhere land, ay

Cause I'm now calling out a warning
For all is not well
There's so little time
Please sir, there's women and children
They lie where they fell
They've done nothing wrong
Nothing at all

You said enough
You'll set him off
You said enough
You'll set him off
You said enough
You'll set him off

He'll tell his story
Say he don't lie, say he don't lie
They tell their story
Say he don't lie, say he don't lie
