

Song For The Outsider

Stateless

He was faceless here,
On the earth he was shaped without a form,
He was shade without color and,
The children can move him, the anders can move him,

Once mother nature has shaken your baring, foundations
She brings you back to find, the healing inside (2x)

He chained inside, hallow cave and (...)
The women who newed him, the men he who newed him,
He said, goddess brings and rise the stars,
Goddess brings and rise the stars yeah

Once mother nature has shaken your baring foundations,
You will find, the answers you've gotten me in time,
And those old, old demons you find, make way and you'll fall

(Sing song straight, to live we're you came)

Sing song straight (2x)
