

# Cold

Static-X

We kiss  
The Stars  
We writhe  
We are

Your name  
Desire  
Your flesh  
We are

Cold  
We're so cold  
We are so  
Cold  
We're so cold

Your mouth  
These words  
Silence  
It turns  
Humming  
We laugh  
My head  
Falls back
