Destroy All

Static-X

You got something to say
Better off stay away
My head's a loaded gun
Waiting to go off

You keep your eyes on yourself
You slit you throat with your guilt
My hands are ringing necks
In my waking thoughts

You got something to say
Better off stay away
My head's a loaded gun
Waiting to go off

You keep your eyes on yourself
You slit you throat with your guilt
My hands are ringing necks
In my waking thoughts

Destroy, destroy all
Destroy, destroy all

Destroy, destroy all
Destroy, destroy all

Destroy, destroy all
Destroy, destroy all
