

## Electric Pulse

Static-X

It's time to melt you down  
It's time to strap you in  
Your mind's about to be diminished

I scream to get me off  
Air blast to pull you in  
You feel the atrophy

Electric  
Electric pulse

Nightmares to shut you down  
Static to keep you in  
Darkness what you don't see  
Atomic

Shockwaves to set you off  
It's time to throw the switch  
It's time that you receive

Electric
