

This moment in time  
This moment defined  
How is it I feel nothing?  
Just don't say goodbye  
You say to me  
I'm trying to do the right thing

This moment in time  
This moment defined  
How is it I feel nothing?

It's alright

And we sneak a call  
And we're like thieves  
I love the times like these  
Just don't say goodbye  
Just won't you please  
I'm trying to do the right thing

It's alright

All my life I was in the cold  
Now I find I feel nothing more  
Leave me to learn  
Leave me to hurt  
Now I'm not so invincible

It's just come to this you know
