I see your bleeding dark side I feel your angry heart Reveals forbidden places More monster yet alive

No faith
Changing into something less than human
No longer part of this
The influence
Changing into something less than human
No longer part of this machine
No mind
Changing into something less than human
No longer part of this machine
It's chemical
Changing into something less than human
No longer part of this machine

Get into my hidden demon Get out of my swollen head Shines down on blackened faces Changing at your expense
