

## Night Terrors

Static-X

In time I'll get this out of  
Get this out of  
Out of my mind  
Where am I?  
I cant see  
I fear for my life  
Fear of this fright

They haunt me  
And they taunt me  
Try to relax  
Let it happen  
My hopes turn to crystal matter  
Watch them shimmer  
As they shatter

Night terrors in my mind  
Thoughts i cannot hide  
Dreams that play on my cold fears  
Night terrors in my head  
Am I really dead?  
I cant tell, it feels so real

Remember what you once said?  
Every passing fragile moment  
Is another chance to turn it around  
I want to try to work it out

Night terrors in my mind  
Thoughts i cannot hide  
Dreams that play on my cold fears  
Night terrors in my head  
Am I really dead?  
I cant tell, it feels so real

Get out of my mind  
Get out of my head  
I wish you were dead  
I cant take it  
Get out of my mind  
Get out of my life  
I'll curse you tonight  
I just cant take it anymore
