I get we gotta run
Make me take it
Take out the big one
I can't forget I cannot
See infect me

Enter the shadow zone
I like it, slice it
This is your own world
Naked, resurfacing

Shadow Zone
I come to realize
That I'm not home now
But you can't see inside me
Shadow Zone
If I can't forget just
Leave me alone now
It's time to go out, shut down

I'm sick of this mutation All of this masturbation It becomes my salvation Taking it, taking it

I'm dead inside, my head my mind Right way wrong way, this cage is my rage My cord ripped out, cry out for help Call this my own
