Start a War

Static-X

```
Sliding spinning
Turn around
Feel my heart pound
Motor screaming
Sliding down
Got to turn it around
Danger nowhere
By myself
I burn the thrill
Claw my way out
Right now
Got to try to get out

I'll start a war with it
I'll start a war with it
I'll start a war with this fucking emotion

I'll start a war
Against you
You're one of them
You call yourself
A victim
But you're at it again
I've felt stranger
Paradise
You made me kill
Now i'm far out
Right now
Got to try to get out

I'll take it all
Give me some more
I'll take it all
```
