

Come Alive

Status Praesents

every morning wake
up its a silly fuckin mornin
feel so bad, head full of stupid , boring
things that want to control my life
there is need to fight, to hold on the drive
resistance against all the bullshit
to feel my faith, never wanna lose it
feelings of freedom in my veins
never wanna stay in tightening chains
freedom of choice, yeah this is the way
there is lotta things needed to say
there is lotta things in anxious mind
never ever stay, stay so fuckin blind
i am down on my knees
now its a time to be free
i am down on my knees
a little time to have
to come alive

another day in this life
still the fuckin mornin
but in my mind wheels are still rollin
lovin the ride no using brakes
dont wanna have life full of fakes
hands on the handles, feet on the pedals
adrenalin rises feelin cold metals
this life is dedicated to the wheels
its time to show this glitterin heels
i am down on my knees
now its a time to be free
i am down on my knees
a little time to have
to come alive
in this life still the fuckin mornin but my stop...
