

Another morning  
Another reluctance  
To wake up and join the stream  
Why can't it be  
Without nasty feelings  
Why can't it go  
Without custody

I try to find the answers, to the question that drives in my head  
Never been such a cool boy, cool boy  
I try to find the answers, to the question that drives in my head  
Never been such a cool boy, such a cool boy to understand  
Every day, every night, I try to find out the answers

Such a cool boy

The dress code policy  
It is making me sick  
Force able smile, coffee breaks  
Why can't it be  
Without nasty feelings  
Where is my place  
In this society

I try to find the answers, to the question that drives in my head  
Never been such a cool boy, cool boy  
I try to find the answers, to the question that drives in my head  
Never been such a cool boy, such a cool boy to understand  
Every day, every night, I try to find out the answers

Such a cool boy
