

Don't Give Up

Status Praesents

We cannot give it up

All the things in my head really go
Up and down and left and right
Just don't know what to do and what
The fuck to think all about

Why we should fall in
To the ground, question in my head
There is terrible feeling
So everybody says

Don't give up
This is an hc style
Don't fuck give up
This is an hc style

Now has comes a time
When we have lost our way
Here is a fucking chance so
Yes my brother I do my best

Show me once again
I really know u care
I know that you fucking care
For now
Don't give up

Don't give this a muthafuckin' breakdown
Don't give up
