

We're goin' lower level
We're goin' down
We didn't care 'bout it especially
But it is a time for doin'
Anything for us
Because the bottom doesn't seem so far

We should rather believe
To clues we got from
The Old fools we have met in the past

We should take a small break
We will say no more fake
Please at least no more say
We don't care anyway
We don't care about this our destiny
We will take a ride
There is so much pain in our fuckin' history

Who's right
Who's wrong
Who's king
Who Loses all
Who will say
Stop no more
We will pray
Don't wanna stay
