

## How Far

Status Praesents

You wrote my name  
And after all these years I wonder why

Many times I have said I got enough, no more of this chap  
But I think now there is a time, time to do something  
Don't waste your time! Be prepared, everything's possible  
This is your right, no allience, you are on your own

Take my hand  
Cause we are going down  
Was I so bad?  
Oh was it just so hard to understand?

Another day in your life, another dirty trick  
This is why, you always lose and you get always sick  
Just say goodbye! This is the only thing that you can do  
This is your fight, no allience, you are on your own

Take my hand  
Cause we are going down

Take my hand I do not want to,  
Take my hand I do not want to, I didn't mean to say goodbye  
To you,  
And everything that we have been trough

Every time I look at you  
I don't understand why did you betrayed me  
Day by day is passing on  
I am just another face  
How far can you see

Can you feel the pain?  
Do you feel the pain?

Every time I look at you  
I don't understand why did you betrayed me  
Day by day is passing on  
I am just another face  
How far can you see?

How far can you see?
