

# You Are Dead!

Status Praesents

Don't you feel the cold?  
It is coming  
Not much time left  
I am coming!

Be prepared that  
This is your last dance  
There is no audience  
No way out  
Cause you are dead!

Everybody say! You are dead!  
You're the one who's past away today  
You are dead!

There is a hole  
In your head  
What do you think?

You are dead but you think you are alive!

You're the one who's lying on the ground  
Goodbye my friend you've past away today

There is a hole  
In your head  
Blood is runing out  
You are dead!

You're the one who's lying on the ground  
Blood is runing out  
Goodbye my friend you've past away today

You are dead but you think you are alive!

There is a hole  
In your head  
What can I say?  
You are dead!

Everybody say! You are dead!

You're the one who's past away today

You are dead
