

# Can't See for Looking

Status Quo

Welcome back in town  
I hear that you are available  
did anybody tell you lately  
that you're delectable?  
everywhere I turn  
it seems like you are all I see  
I swear that we have  
total compatability  
What do I have to do  
to get you alone with me?  
It's written in the stars  
that I will always be with you  
I don't care whatever it takes  
whatever I have to do

You just can't see for looking  
You just can't see for looking  
You just can't see for looking  
You just can't see for looking  
You just can't see for looking  
You just can't see for looking

I am your prime number  
the one that you need to, me  
I am the magic drink  
you never got to drink  
it's written in the stars  
that you will always be with me  
one word in your head baby  
confidentially

You just can't see for looking  
You just can't see for looking  
You just can't see for looking  
You just can't see for looking  
You just can't see for looking  
You just can't see for looking

Unlock your freezing door  
'cos I can't stand the heat  
we should be walking on  
the bright side of the street  
it's written in the stars  
that I will always be with you  
I don't care whatever it takes  
whatever I have to do

You just can't see for looking  
You just can't see for looking  
You just can't see for looking  
You just can't see for looking  
You just can't see for looking  
You just can't see for looking

You just can't see for looking  
You just can't see for looking  
You just can't see for looking

You just can't see for looking  
You just can't see for looking  
You just can't see for looking
