

Fine Fine Fine

Status Quo

I never knew of heartache
'til I messed with you
I sure do sitting here
And feeling all the pain
I just can't sleep now
'cos I'm hoping that you'll keep
Another heartache for my heart again

My mama taught me
How to read from the good book
My papa taught me
How to win and lose a game
They went down smiling
'cos they left me all they had
Plus another heartache for my heart again

But now it's fine, fine, fine
'cos you're with me all the time
There to care and share the things I do
And now it's fine, fine, fine
'cos you're with me all the time
Everywhere and even nowhere too

I use to make the late nights
On a cheap weekend
But all the women there were
Just a crying shame
I heard them saying
That they didn't think I'd stop
For another heartache for my heart again

But now it's fine, fine, fine
'cos you're with me all the time
There to care and share the things I do
And now it's fine, fine, fine
'cos you're with me all the time
Everywhere and even nowhere too
