

Get Out And Walk

Status Quo

I got fat knees from crawlin' so fast
I got sore lips from kissin' your ass
I know I don't want any more part of you

I got brain pain, you make me so mad
I got black eyes from fightin' your dad
I know I don't want any more part of you

Get out (Get out!) get out and walk
Stop blowing kisses across the hall
Don't write me letters and please don't call
Gimme a break, Get out and walk

I got slipped discs with you on my back
I got ulcers from swallowing crap
I know I don't want anymore part of you

Get out (Get out!) get out and walk
Stop blowing kisses across the hall
Don't write me letters and please don't call
Gimme a break, Get out and walk

Get out (Get out!) get out and walk
Stop blowing kisses across the hall
Don't write me letters and please don't call
Gimme a break, Get out and walk
