- I got fat knees from crawlin' so fast I got sore lips from kissin' your ass
- I know I don't want any more part of you
- I got brain pain, you make me so mad
- I got black eyes from fightin' your dad
- I know I don't want any more part of you

Get out (Get out!) get out and walk Stop blowing kisses across the hall Don't write me letters and please don't call Gimme a break, Get out and walk

I got slipped discs with you on my back I got ulcers from swallowing crap

I know I don't want anymore part of you

Get out (Get out!) get out and walk Stop blowing kisses across the hall Don't write me letters and please don't call Gimme a break, Get out and walk

Get out (Get out!) get out and walk Stop blowing kisses across the hall Don't write me letters and please don't call Gimme a break, Get out and walk
