

## Goodbye Baby

Status Quo

I hear a car out the back  
I see a full moon rising  
It's my red cadillac  
My baby's leaving me  
Now thing's are getting harder  
'cos she's gone from a to b

She's on a long dusty track  
Sure ain't surprising  
My days are looking black  
Ain't no way to be  
See I don't care about my baby  
But my cadillac is all to me

So goodbye baby baby goodbye  
Goodbye baby baby goodbye  
If you come running  
Gonna have to ask you why

When I'm back in the sack  
And I'm realising  
I know she ain't coming back  
It's so plain to see  
Don't wanna hear about my baby  
Just want my caddy back with me

I'm sitting here out the back  
And I'm still surviving  
Guess she ain't coming back  
So plain to see  
Now things are getting harder  
Since she's gone away from me

So goodbye baby baby goodbye  
Goodbye baby baby goodbye  
If you come running  
Gonna have to ask you why

Don't wanna hear about my baby  
Just want my caddy back with me
