I hear a car out the back
I see a full moon rising
It's my red cadillac
My baby's leaving me
Now thing's are getting harder
'cos she's gone from a to b

She's on a long dusty track
Sure ain't surprising
My days are looking black
Ain't no way to be
See I don't care about my baby
But my cadillac is all to me

So goodbye baby baby goodbye Goodbye baby baby goodbye If you come running Gonna have to ask you why

When I'm back in the sack
And I'm realising
I know she ain't coming back
It's so plain to see
Don't wanna hear about my baby
Just want my caddy back with me

I'm sitting here out the back And I'm still surviving Guess she ain't coming back So plain to see Now things are getting harder Since she's gone away from me

So goodbye baby baby goodbye Goodbye baby baby goodbye If you come running Gonna have to ask you why

Don't wanna hear about my baby Just want my caddy back with me
