## **Gotta Get Up And Go**

## **Status Quo**

Sitting outside on a chair in the summer Not a lot on my mind I can do lots or not if I wanna Even if then I find

I've gotta get up
Gonna be back I know
I've gotta get up
Better get up and go
Better get up and go
I gotta get up and go

Taking my time 'cos I ain't in a hurry Not a lot else to do I can lay back and I don't have to worry Leaving that up to you

I've gotta get up Gonna be back I know I've gotta get up Better get up and go Better get up and go

Wait just a minute
There's something in it
That I need I know

Walking the dog gets me up in the morning Johnny don't like me late Radio news and the sun stops me yawning Everything else can wait

I've gotta get up
Gonna be back I know
I've gotta get up
Better get up and go
I've gotta get up
Gotta go do a show
I've gotta get up
Gotta get up and go
Better get up and go
Gonna get up and go

Wait just a minute
There's something in it
I know how to win it
There's something in it
That I need I know

Gotta get up and go Gotta get up and go Gotta get up and go I gotta get up and go

I've gotta get up Gonna be back I know I've gotta get up Better get up and go
I've gotta get up
Gotta go do a show
I've gotta get up
Gotta get up and go
Better get up
