

## Green

Status Quo

So then the sky turned weird  
And the sun went down  
But it weren't two hours 'fore it came around  
It was a midnight feast  
Such a sheer delight  
I saw the northern lights then i hit the ground

Green, green, keep it clean  
Stick all your money up your money machine  
Green green perfect scene  
Oh it's very very nice here  
But i wouldn't wanna live here

You got your blazing red  
You got your frozen breath  
Watch the countryside just bleed to death  
And then the ground turns white  
And the sky turns brown  
And the whole damn world looks upside down

Brown brown dead end town  
Just like a-living in a hole in the ground  
Brown brown upside down  
Well it isn't very nice here  
And i wouldn't wanna live here

Green, green, keep it clean  
Stick all your money up your money machine  
Green green perfect scene  
Oh it's very very nice here  
But i wouldn't wanna live here
