

# Hold Me

Status Quo

This feels like something that I've had before  
Changing places with myself once more  
Round and round, I don't know day from night  
Changing faces as I'm losing sight

Woh hold me  
Hold me, I'm tired now  
Yeah hold me, hold me, hold me, I'm tired now

Just like the rain that's falling all around  
It disappears, like friends I thought I'd found  
I can't believe that it's the same with you  
So tell me baby that it isn't true

Woh hold me  
Hold me, I'm tired now  
Yeah hold me, hold me, hold me, I'm tired now

On Tuesdays I don't want to socialise  
On Wednesdays I wake up to realise  
The colour's changing and the mood is right  
Oh baby, won't you stay with me tonight

Woh hold me  
Hold me, I'm tired now  
Yeah hold me, hold me, hold me, I'm tired now

Woh hold me  
Hold me, I'm tired now  
Yeah hold me, hold me, hold me, I'm tired now
