Status Quo

```
Walking alone, a street with no phone
Could I be younger most of the time?
Doing her wrong, taking so long
Should I do all things in my own time?
May I be wiser, yes, than most men will ever be?
May I be younger most of the time
Most of the time, most of the time
Most of the time, most of the time

May I be wiser, yes, than most men will ever be?
May I be wiser, yes, than most men will ever be?
May I be younger most of the time
Most of the time, most of the time
```
