

# Mystery Island

Status Quo

Away, away from the madding crowd  
I sit and dream oh I'm singing out loud  
under that coconut tree I'll close my eyes  
drift away and think of you  
walking on in the sand  
I'll take your hand and lead you to

Mystery Island, Mystery Island  
in the sun yeah  
Mystery Island, take me away from it all  
you don't look back, you don't look back  
you just leave your worries behind  
you wanna stay on Mystery Island

Today I'm daytripping out to sea  
like the bird on the wing  
nothing's bothering me  
I wanna be flying high  
up to the clouds  
with my feet still on the ground  
I'll drift away I know I'm safe  
now that I've found my

Mystery Island, Mystery Island  
in the sun yeah  
Mystery Island, take me away from it all  
you don't look back, you don't look back  
you just leave your worries behind  
you wanna stay on Mystery Island

(I've found my)  
Mystery Island, Mystery Island  
in the sun yeah  
Mystery Island, take me away from it all  
You don't look back, you don't look back  
you just leave your worries behind  
you wanna stay on Mystery Island
