Mystery Island

Status Quo

Away, away from the madding crowd I sit and dream oh I'm singing out loud under that coconut tree I'll close my eyes drift away and think of you walking on in the sand I'll take your hand and lead you to

Mystery Island, Mystery Island in the sun yeah Mystery Island, take me away from it all you don't look back, you don't look back you just leave your worries behind you wanna stay on Mystery Island

Today I'm daytripping out to sea like the bird on the wing nothing's bothering me I wanna be flying high up to the clouds with my feet still on the ground I'll drift away I know I'm safe now that I've found my

Mystery Island, Mystery Island in the sun yeah Mystery Island, take me away from it all you don't look back, you don't look back you just leave your worries behind you wanna stay on Mystery Island

(I've found my)
Mystery Island, Mystery Island
in the sun yeah
Mystery Island, take me away from it all
You don't look back, you don't look back
you just leave your worries behind
you wanna stay on Mystery Island
