

So Ends Another Life

Status Quo

In a world of education
There's no time for compassion
Life's a fire, never ending
Bringing pain and then befriending

And like a fire that burns no light
And drifts to Heaven, so ends another life
Is there time to care, it's only fair but life goes on
And on and on and on, 'til in the end you don't be long

So ends another life
To let this world go on
Don't cry for pity my friend
You never gave none

There's a hunter with his gun
Pointing upwards to the sun
Thinks a bird can feel no pain
If it can, it won't again

And like a fire that burns no light
And drifts to Heaven, so ends another life
Is there time to care, it's only fair but life goes on
And on and on and on, 'til in the end you don't be long

So ends another life
To let this world go on
Don't cry for pity my friend
You never gave none

So ends another life
To let this world go on
Don't cry for pity my friend
You never gave none
