That's a Fact

Status Quo

Sitting in a cornfield looking at a cob Thinking of a long line waiting for a job And I'm alone and that's a fact I'm alone and that's a fact

Sitting in a full car someone at the wheel Going to a new stop, I wonder if it's real And I'm alone and that's a fact And I'm alone and that's a fact

I need to maybe talk to you Said I need to, and said I need you I need to, I need to be with you I said I need to, I gotta see you

Sitting at a new stop, didn't get the job Couldn't find a long line, took another drop And I'm alone and that's a fact So I'm alone and that's a fact And I'm alone, and I'm alone

Sitting at a new stop didn't get the job Couldn't find a long line, took another drop And I'm alone and that's a fact So I'm alone and that's a fact And I'm alone and that's a fact That's a fact, that's a fact
