

# The Madness

Status Quo

Callin' out the boys and girls  
Say hello to a crazy world  
Of green skies, red rain  
No problem, no pain  
Introducing my invisible friend  
Take you up around the bend  
Where we're going is anybody's guess  
'cos we're riding the oblivion express  
With the madness  
Yeah we're riding with the madness  
You're never alone with the madness  
And on a day like this all i wanna do is sail away  
Into a holiday

Now don't be shy get on board  
Mr m knows what you're looking for  
Strawberry drums and green guitars  
Champagne people and fizzy cars  
Take a journey, take a ride  
See yourself from another side  
No need to sit around watching tv  
When you can close your eyes and get it for free  
With the madness  
Yeh we're riding with the madness  
You're never alone with the madness  
And on a day like this all i wanna do is sail away  
Into a holiday

na na na na na na

You're never alone with the madness,  
Yeh we're riding with the madness  
You're never alone with the madness  
You're riding alone with the madness  
On a day like this all i wanna do is sail away  
Into a holiday

na na na na na na.
