

# Thinking Of You

## Status Quo

Up in the morning and down in the evening  
Light in the night time and dark in the day  
Running for something and waiting for nothing  
Looking at people and hiding away  
Asking a question when I know the answer  
Hanging around when I just wanna play

I'm thinking of you again  
I'm thinking of you  
Don't know what to do again  
But I'm thinking of you  
Tell me what you're doing then  
I'll know that it's you  
Don't wanna be blue again  
So I'm thinking of you

Into a new day and out on the highway  
Cut in the fast lane and going so slow  
Talking 'bout old days and walking in new ways  
Watching those tv reality shows  
Sitting in silence with standing room only  
Moving in closer and ready to go

I'm thinking of you again  
I'm thinking of you  
Don't know what to do again  
But I'm thinking of you  
Tell me what you're doing then  
I'm thinking of you

Where are we going  
We're on a roll  
You'll see me coming  
I'm coming through

Up in the morning and down in the evening  
Light in the night time and dark in the day  
Asking a question when I know the answer  
Hanging around when I just wanna play

I'm thinking of you again  
I'm thinking of you  
Don't know what to do again  
But I'm thinking of you  
Tell me what you're doing then  
I'll know that it's you again  
Don't wanna be blue again  
So I'm thinking of you
