

Create Your Fate

Steadman

Create Your Fate

If you say nothing will be coming your way

What may come you chase it away

Create you own fate

If you smile something in the worlds gonna change

Something in you won't be afraid

Create your own fate

Will you be missed when you are gone?

If something shifts do you take too long?

You're feeling so misunderstood

It's like an endless ocean

you count to ten but it's no good

You find you're wasting your time

But doesn't it feel good

Is it late nothing comes to us on a plate

No thank you I already ate

Create your own fate

Will you be missed when you are gone?

If something shifts do you take too long?

You're feeling so misunderstood

It's like an endless ocean

You count to ten but it's no good

You find you're wasting your time

But doesn't it feel good
