

Two Together

Steadman

You'll do anything I want
I help you make the right decisions
I'll give you somewhere soft to land on the way down
Been sleeping underwater
Holding my breath 'til you came along
You walk around the corner
Carry me home to where I belong

Hey, how does it feel?
Once in a lifetime
Two may find each other
Hey, nothing's for real
Now that the search is over
Two together and you know you're the one

I'll do anything you want
You only have to breathe to move me
You try to take the load right off when I'm way down
Been sleeping underwater
Holding my breath 'til you came along
You walk around the corner
Carry me home to where I belong

I needed love
You gave it to me
Warm, like the sun
You give and you give
You're holding the world around you

Two together and you know you're the one
