Whirlwind

I could never be your kind I could never change your mind I could never be your kind Change your mind Speak out my whirlwind Reach out my whirlwind Freak out my whirlwind I hope you lash out

I could never be your kind I could never change your mind I will travel far and wide Never hide Wish I didn't live among you I've been forced to I have never found another No one to talk to How could I have stayed this long I been taught to be numb And now I want to Speak out my whirlwind Reach out my whirlwind Freak out my whirlwind I hope you lash out I hope you lash out

do do do do bit

Speak out my whirlwind Reach out my whirlwind Freak out my whirlwind
