Circuitry

Steam Powered Giraffe

Circuitry, seems to me
more like a circus wheel
with dancing lights and purple horses
and of coarse there's giraffes

Just give in
Let it spin around

Watch and see, tell you greed
is more like a sleeping seed
See one its time let it shine
This is the age of the wiseman

Now complete all is freed
Breathe or be cold,
stories that hold us
told us together we are
