## Steam Powered Giraffe

You didn't have to look my way  
Your eyes still haunt me to this day  
But you did. Yes, you did

You didn't have to say my name  
Ignite my circuits and start a flame  
But you did

Oh, Turpentine erase me whole  
(Cause I) don't want to live my life alone  
(Well I) was waiting for you all my life  
Oh  
Why

Set me free, my...honey-  
Bee  
Honeybee

You didn't have to smile at me  
Your grin's the sweetest that I've ever seen  
But you did. Yes you did

You didn't have to offer your hand  
Cause since I've kissed it I am at your command  
But you did

Oh, Turpentine erase me whole  
I don't want to live my life alone  
I was waiting for you all my life  
Oh  
Why

Set me free, my...honey-  
Bee  
Honeybee

Hello Goodbye, Twas nice to know you  
How I find myself without you  
That I'll never know  
I let myself go

Hello Goodbye, I'm rather crazy  
And I never thought I was crazy  
But what do I know?  
Now you have to go
