# Scary World

**Steam Powered Giraffe**

I don't know where everyone goes
Its not like us to follow
It seems that we are all alone
And don't know where to go

I'm safe right here
We know who we are
It's kind of scary
Thinking of what is out there

It's a scary scary world
and there are scary scary things
werewolves in the night
and vampires with fangs

Oh I want to live in a peacefull world
But I can't seem to find another world
that's not scary (not scary), not scary (not scary),
not scary (not scary), not scary (not scary)

Oh, I'm not sure when the time is right
To leave this place without a fright
Don't want to face the fears we've met
And be full of regret

'Cause I'm safe right here
We know who we are
And It's kind of scary
Thinking of what is out there

It's a scary scary world
and there are scary scary things
zombies in the way
eating their own brains

There are she-devils and sucubi that just want their way
And bruteful demons that just want to have all the reins
it's so scary (so scary), so scary (so scary),
so scary (so scary), so scary (so scary)

La la la la la (la la la) La la la la la (la la la la)
