

# Scary World

## Steam Powered Giraffe

I don't know where everyone goes  
Its not like us to follow  
It seems that we are all alone  
And don't know where to go

I'm safe right here  
We know who we are  
It's kind of scary  
Thinking of what is out there

It's a scary scary world  
and there are scary scary things  
werewolves in the night  
and vampires with fangs

Oh I want to live in a peacefull world  
But I can't seem to find another world  
that's not scary (not scary), not scary (not scary),  
not scary (not scary), not scary (not scary)

Oh, I'm not sure when the time is right  
To leave this place without a fright  
Don't want to face the fears we've met  
And be full of regret

'Cause I'm safe right here  
We know who we are  
And It's kind of scary  
Thinking of what is out there

It's a scary scary world  
and there are scary scary things  
zombies in the way  
eating their own brains

There are she-devils and sucubi that just want their way  
And bruteful demons that just want to have all the reins  
it's so scary (so scary), so scary (so scary),  
so scary (so scary), so scary (so scary)
