

Soliton

Steam Powered Giraffe

Space and time could come undone
and with a blast create a conundrum
Then particles of light could seethe
and burn rainbows across the galaxy

The moon could crumble before our eyes
then break apart and vaporize
The stars could explode and boil Earth's seas
and rip the fabric of reality

Well I don't care if all that happens
everything is fine as long as there's a you and me

Even when the sky is falling
Back to you I'll travel and scape with
no matter how many times it should be
I'll keep you moving on

Like a soliton, a soliton, a soliton
I'll keep you moving like a soliton, a soliton, a soliton

Even when the moon shatters the tide
I will always follow you through the pain
You can always count on me through everything
And I'll keep you moving on

Like a soliton, a soliton, a soliton
I'll keep you moving like a soliton, a soliton, a soliton

Solitons keep on moving on, waves of
solitons pulsing out and on, from where they
started from. Yes they sustain their runs, as
solitons, by moving on

We don't have to worry anymore
You have torn a path for us to escape through
We can take our time finding our way in this world

Oh yes, and keep us moving on
and we'll break through the dark and find a dawn
yes we'll keep on moving on
yeah keep on moving on
like a

Like a soliton, a soliton, a soliton
We'll keep us moving like a soliton, a soliton, a soliton
